Send us Your Old Rugs, Clothing!

You May Send OLD RUGS CARPETS, CLOTHING of All Kinds and Colors

SEND your materials just as they are. You may order any rug pictured in this book, regardless of the colors in your old materials. It does not matter whether the material you send is all old carpets or rugs—or a part of it is clothing. Don't hesitate to send even badly worn materials. There is more good material in them than you may imagine. Just send the number of pounds we ask for on each page. We do the rest. We guarantee every Olson Rug will be the same high standard of quality. We can use any of the following kinds of old carpets and rugs:

Axminster	Olson Rugs	Smyrna	Fluff Rugs
Velvet	Wilton	Oriental	Tapestry
Brussels	Ingrain	Broadloom	Wool Fibre

or any other kind of carpet or rug

Old Clothing and Other Materials. The materials in wool clothing can be used to splendid advantage in the nap of the rug. Cotton and linen materials are used only in the inner construction—never in the surface of an Olson Rug. Most clothing worn today contains wool that has been reclaimed by the large clothing mills from used clothing. You may send: Coats, Suits, Dresses, Blankets, Sweaters, Curtains, Draperies, Shirts, Table Covers, Sheets, also Sheep's Wool.

If You Lack Enough Material—you can probably get some from friends and neighbors for the asking. To help you out if you still lack enough, we will (if you wish) furnish wool at 25 cents a pound, (which is below the current market).

If You Have No Scales

The following will give you the approximate weight of your old carpets and rugs.

Your old 9 x 12 ft.

Rug will weigh:

Wilton and Other Fine Grade Rugs..... About 40 to 55 lbs.

Tapestry Brussels and Low Grade Velvets..... About 25 lbs.

Better Grade Axminsters and Velvets..... About 30 to 38 lbs.

(Other sizes in proportion.) The average weight of the old carpets or rugs is 2 to 4 pounds to each square yard.

(New Olson Rugs, 9 x 12 ft. size, weigh about..... 45 lbs.)

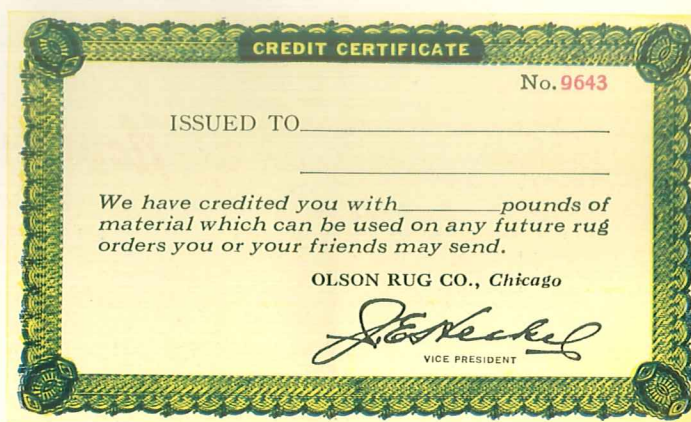

If You Have More Material Than Required—

Many of our customers gather together *All the Materials* they have around the house—ship by *Freight at Our Expense*—and we send them a *Credit Certificate* for the surplus. They get the materials out of the way—and we save freight charges on the larger shipment.

If You Are Not Ready to Order, but Wish to Get Your Materials Out of the Way—

— **Why Not Ship to Us NOW at Our Expense?** Just Mail Freight or Express receipt and write your name and address clearly and the number of pounds of material you are sending and say—"I'll order later." Each time you ship (see page 5) we will send you a Credit Certificate as shown below.

WE DO NOT BUY OLD MATERIALS

How the Valuable Materials in OLD RUGS, CARPETS, CLOTHING

ARE CONVERTED INTO NEW, REVERSIBLE,
BROADLOOM RUGS BY THE OLSON PROCESS

WOULDNT you like to look behind the scenes of America's finest modern rug factory and see a few of the many wonders of scientific rug weaving that have thrilled our thousands of visitors—including the Decorating Editors of practically every woman's magazine, Home Making experts from leading Radio stations, writers, textile engineers, club women, church societies, teachers, college students, etc.

I am sure that if I could conduct you in person from one end of this plant to the other, you would understand why it is possible for us to offer a new and finer type of rug than can be secured elsewhere at twice the price. You would then understand why over two million women, accustomed to paying high store prices for one-sided Axminster, Velvet and Wilton rugs, now prefer to send their old materials to us and get modern, reversible rugs *Direct from the Olson Factory*, where there are no wholesalers', jobbers', retailers' profits or expenses to pay.

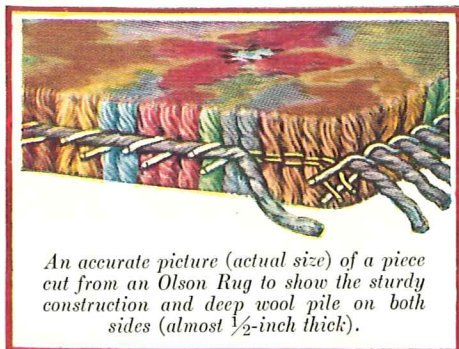

Soft, fluffy wool that has been reclaimed from old materials.

You Could Spend Days Here inspecting literally acres of the most modern rug making machinery—shredding machines—carding, washing and scouring, sterilizing, pickering, bleaching machines—great steaming dye vats—row after row of looms which for speed and efficiency have never been excelled.

What thinking man or woman fails to get a real thrill out of a worth while economy? This is why, included in our list of customers, you will find the names of three Presidents of the United States, well known Governors, a distinguished daughter of a famous president, an Eastern financier, etc.

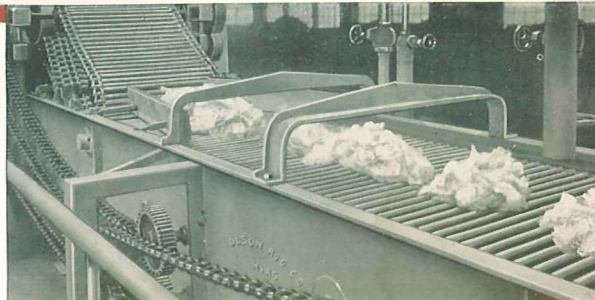

Our Process is a Natural One. For years, steel, iron, tin, glass and many other materials have been reclaimed. Everyone knows that many fine writing papers are made with discarded clothing. By the Scientific Olson Process we are able to reclaim the good seasoned wools that remain in all old rugs, carpets and clothing no matter how worn they appear to be.

This Is The Day of Specialists. I am sure you would marvel at the magnitude of this largest of modern rug plants with its hundreds of expert weavers, dyers, chemists, skilled artisans, engineers and specialists of all sorts most of whom have spent a lifetime perfecting their departments.

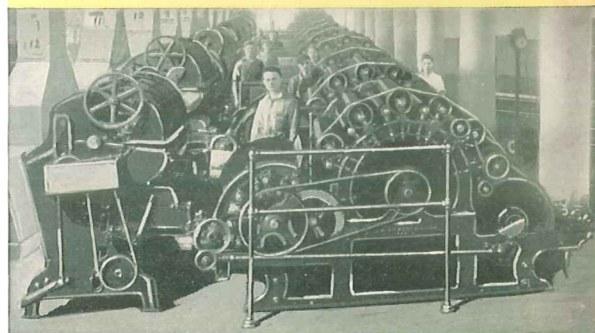

An accurate picture (actual size) of a piece cut from an Olson Rug to show the sturdy construction and deep wool pile on both sides (almost 1/2-inch thick).

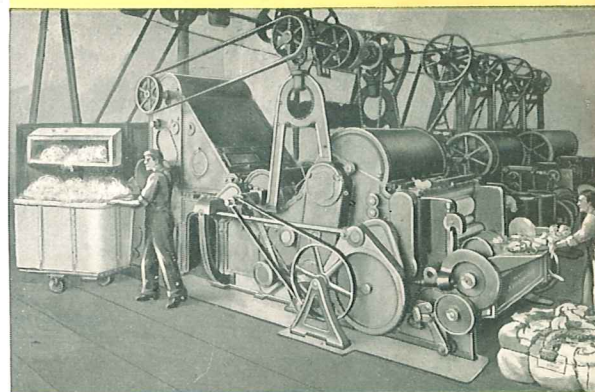

These new and finer type Olson Rugs are the crowning achievement of our 67 years of constant effort. Please do not confuse Olson Rugs with rugs made in the ordinary way from old carpets and rugs. They are absolutely different. Every Olson Rug is woven (next page)

Continuous washing, scouring, sterilizing, bleaching and dyeing machine 75 feet long.

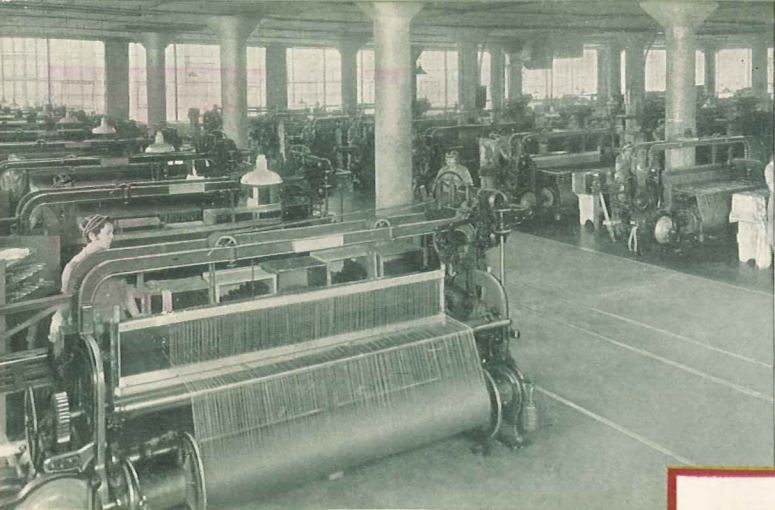

Great carding machines where the material is carded and combed into long, fluffy strands.

ABOVE: Here the old materials are cut and shredded—the good wools separated and prepared for carding.

BELOW: Spinning and twisting the yarn.

A few of the great looms that weave the beautiful, high-pile Olson Rugs shown in this catalogue. We have developed new methods of weaving which for speed and efficiency have never been excelled.

A section of one of our extensive weaving departments. Our new looms are the finest that human ingenuity can construct. Their speed and accuracy enable us to offer you finer rugs for less money.

This illustration shows the 4-ply warp (4 strands) we use. Compare it with the 3-ply warp used in so many rugs.

with the same painstaking care and attention to detail that is employed in the weaving of the finest high priced Wilton Rugs.

By the Famous Olson Process, we sort, merge and reclaim the good wool and other materials in all kinds of old carpets, rugs, clothing, blankets, draperies, etc. We thoroughly scour, sterilize, shred, picker, card, comb, bleach and combine it into soft, fluffy, sanitary wool that looks and feels like costly new materials. This material is steamed and scientifically "treated" to give it fresh, new luster and resiliency—tightly spun, wound into skeins, expertly dyed with the finest of dyes, and woven on great power looms into luxurious, modern, seamless, reversible rugs as illustrated.

By our elaborate process of scouring, cleaning and boiling, every particle of dirt, all stains, etc., are removed. No germs could possibly survive

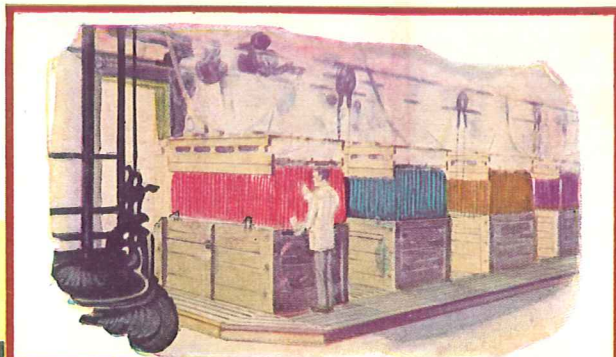

this thorough sterilizing. The finished rug is immaculately clean, fresh and sanitary.

It Has Taken Us Over Half a Century of painstaking effort and constant improvement to make these finer Olson Rugs the excellent floor covering they are today.

If you will divide the cost of an Olson Rug, which can be used on both sides, by the greater number of years of wear and satisfaction it will give you, you can come to only one conclusion, "it is true economy to send in your old carpets, rugs and clothing and get beautiful, new reversible rugs at half the price of an ordinary one-sided store rug." We promise a pleasant surprise. Read our famous 67-year-old Guarantee of "Satisfaction or Your Money Back," printed on the back cover of this catalog.

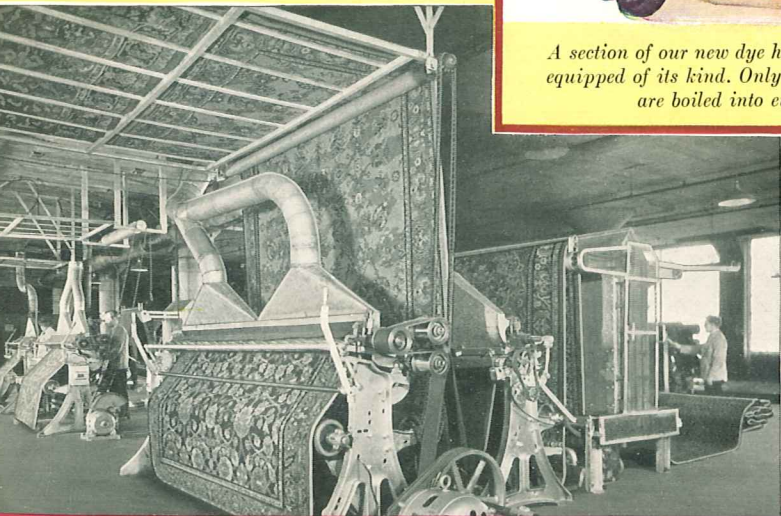

You cannot lose a penny. That is why we say "Send us Your Materials now and Try Olson Rugs at our Risk."

BELOW—A view of some of our large steaming and shearing machines through which all Olson Rugs must pass so that the nap on both sides is luxuriously soft and smooth.

A section of our new dye house, one of the largest and best equipped of its kind. Only the finest dyes are used, which are boiled into every particle of yarn.

A small section of our spinning division showing some of the immense machines 125 feet long, that spin the wool into firmly twisted, high-grade rug yarn used in Olson Rugs.

"FINISHED" RUGS IN SO MANY SIZES

Unusual and Extra Large Sizes for Every Possible Need

THE correct size rug for almost every conceivable size room is shown on each page—more rug sizes than you will find anywhere else in the United States. Only in a very exceptional case would it be necessary to order a "SPECIAL SIZE RUG."

Savings are greatest if you order from the 43 regular sizes shown. However, we are able to weave "SPECIAL SIZES" in 13 different WIDTHS up to 16 feet by ANY LENGTH at the prices shown at the bottom of each Price List.

Naturally, the price on these "SPECIAL SIZES" is necessarily a little higher due to resetting of the looms. Special Sizes

sometimes require a little more time—10 days to two weeks.

No Need to "Put Up" with Misfit Rugs

Nothing mars the beauty of a room so much as a misfit rug—one too small—too short—or too narrow. The popular trend is to use full size rugs covering most of the floor which gives a room spaciousness and adds an atmosphere of charm and distinction. Why be satisfied with ordinary, one-sided rugs in the few sizes offered when you can order beautiful, deep-piled, seamless *Reversible Broadloom Rugs* from the Olson factory in just the right Size, Color and Pattern at Half the cost?

From this complete catalogue you can choose just the right Color, Pattern and Size rug you need. Just ship your material at our expense and mail your order to us—we do the rest.

DECORATING HELPS

A few Simple Rules to Guide You

By our Decorating Expert, whose Advice is Free to Olson Customers

THIS book brings you the new trends—the smart, up-to-the-minute new rug colors and patterns. All are designed to make your home a lovelier, friendlier, more comfortable place in which to live.

In these pages, American women of taste and refinement are offered the kind of rugs they would choose if price were no object—rugs of such distinction, at prices so temptingly low, that one is eager to find a place in one's home for every pattern shown.

Modern Decorating Demands "Livable Rooms" and "Colorful Harmony"

Through her new knowledge of decorating, the modern woman knows that the rug is the keynote—the *background* of the entire room. She appreciates the need for a *background* of beauty.

Perhaps no other single decorating item in a room can transform it so completely and inexpensively as the fresh beauty of a luxurious, Modern Olson Reversible Broadloom Rug.

Surely none of us want our homes to be exactly like those of our friends or neighbors. Let your own good taste be your guide in planning rooms that are distinctive. Remember, this is an age of **COLOR**. Don't be afraid to use it freely. Colorful rooms chase away cares of the day. Rugs can help more than anything else.

An inferior rug spoils the beauty of everything that comes near it—and measured by years of satisfaction, a cheap, poorly constructed rug costs more than a good rug.

What Size Should a Rug Be?

THE trend today is to show less bare floor space around the rug. This is accomplished by the use of a larger rug which gives a feeling of luxury and spaciousness and pulls everything together better. But in many homes with fine wood floors, a larger margin around the rug is still preferred. It is entirely a matter of taste. There are no hard and fast rules. Usually, however, a rug that is too small

makes a room appear smaller and a pleasing arrangement difficult.

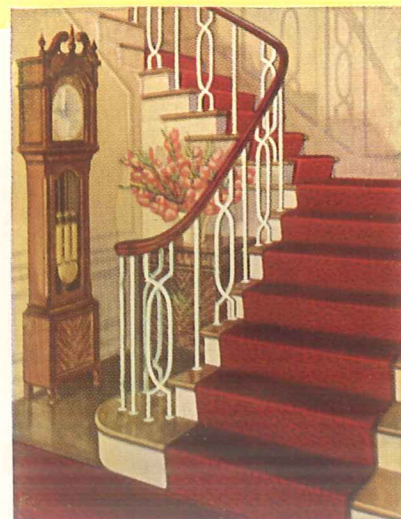

Owing to the limited number of sizes offered by rug stores, many women select rugs not suited to their rooms; and nothing mars the beauty of a room so much as a misfit rug—one too small—too short—or too narrow.

The Olson Rug Co. have entirely eliminated the necessity of using misfit rugs by weaving Unusual Sizes and Large Rugs for *every need*—*Reversible Rugs* that may be **TURNED FOUR WAYS** to distribute the wear at doorways, in front of chairs, etc.

Avoid Misfit Rugs

For instance, you can imagine how out of place the ordinary 9x12 foot rug would look in a square room. In these pages you will find such unusual sizes as 9x9 feet, 10x10 feet, 11x12 feet, etc.

Adjoining rooms connected by wide doorways may be effectively treated by using rugs in the same color or design,

Wine Red—a rich new color

though this is not necessary. Rugs in adjoining rooms, however, should harmonize.

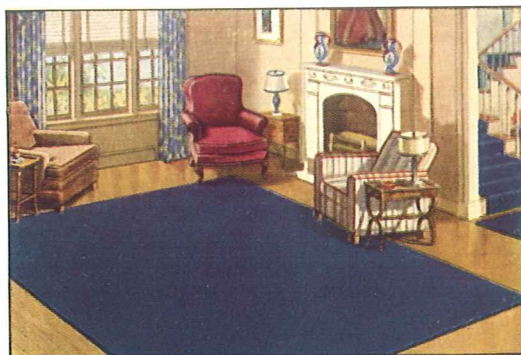

The use of only scatter rugs in living rooms is seldom successful, for they make a room seem smaller and more cluttered. A larger rug offers a richer and more spacious effect. If a solid or two-toned rug is used, scatter rugs in contrasting colors, or in a design, may be thrown over the large rug for protection in front of davenport, easy chair or fireplace, and at thresholds, giving a colorful note of interest. Scatter rugs must be laid parallel with walls.

A Few Fundamental Rules

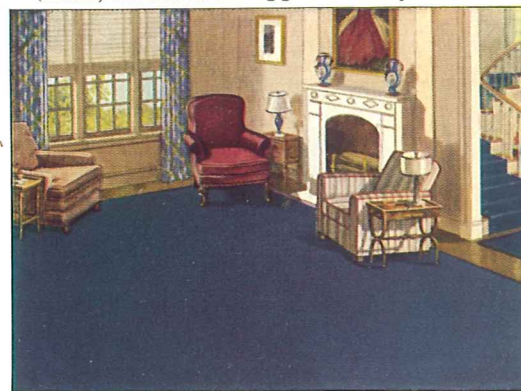

AS a general rule rugs should be darker than the walls or ceilings, but pleasing effects are possible through the use of light rugs in rooms with darker walls.

If you select a richly figured rug, it will be more harmonizing to have the walls and hangings conservative in pattern. Solid colors, two-tone and tweed blends however, may be used anywhere with all types of furniture. They are in excellent taste. Many of the finest homes are furnished with them throughout.

In your living room, place your furniture in friendly, conversational groups arranged for easy use. Avoid placing chairs stiffly along the walls. Plan furniture arrangements to balance in height. Place largest pieces against largest wall areas. Large pieces should always be parallel or at right angles to wall—never diagonal. Enliven your rooms with a colorful chair, lamps, pillows.

(Above) A rug that is too small makes a room look bare.
(Below) The correct size rug gives a room spaciousness.

- 1 You Furnish Materials** thus saving a large part of the cost of your rugs.
- 2 You Deal Direct With Factory** which means YOU eliminate wholesalers, jobbers and retailers profits, expenses, rents, salaries, etc.—a big saving.
- 3 You Order By Mail** direct from the great Olson factory, the most economical method of buying ever devised. In the quiet of your home, undisturbed by over-anxious salesmen, you can leisurely select the rugs best suited to the furnishings in your home.
- 4 Two Rugs in One.** When one side is worn you have another fresh, new, deep nap surface on the other side with colors and patterns undimmed by use. Don't be misled by such advertisements as "Woven through to the back"—this does not mean "Reversible."
- 5 You Can Turn Olson Rugs** four different ways to distribute the wear; ordinary one-sided rugs can be turned around only once. Think of the added wear.
- 6 Twice As Soft Underfoot.** A reversible Olson Rug is soft and quiet underfoot—thrilling luxury.
- 7 No Pads Are Needed.** The added expense of a pad, so necessary when you buy thin, ordinary one-sided rugs, is now unnecessary because the under surface of an Olson Rug is actually BETTER than any pad.
- 8 They Are Closely and Firmly Woven** with plenty of body to make them lay smooth and flat without the need of a lot of glue sizing on the back. An Olson Rug is all rug. An Olson Rug is easy to clean.

"Beautiful and Durable"

"This was my second order of rugs from your company and I find they hold up well under the hard wear which they are subject to in my home. For beauty and durability, I do think they can be excelled. I shall be glad to show them to my friends."

HERE'S PROOF

That Olson Reversible Rugs Last Twice as Long

THE Pittsburgh Testing Laboratory, outstanding engineers and chemists for fifty years, made these tests on a government type carpet testing machine designed by U. S. Bureau of Standards at Washington. They chose two 9 x 12 ft. Olson Rugs about to be shipped to customers and compared them with two 9 x 12 one-sided rugs bought by mail from other sources and selected because they resembled in color and pattern and were identical in price to the Olson Rugs. This report tells its own story.
